

Running a school isn't easy

As a former Education Executive with CPSMA (Catholic Primary Schools Management Association), I understand the problems schools face on a daily basis.

Because I have spent a lot of time talking to Chairpersons of Boards of Management and school Principals about these issues.

Issues like:

- Employment contracts
- Parental complaints
- Family law and communication with parents
- Grievance and disciplinary procedures
- Data protection
- Board of Management governance
- Admission and enrolment policies
- Health and safety
- Bullying involving staff and/or pupils
- Section 29 appeals
- Suspensions and expulsions
- Stress in the workplace
- Appointment procedures
- Changing contracts of employment
- And more.

**Many of these problems can grow into a crisis pretty easily.
And cause avoidable anxiety and worry for school management.**
